

Problem 1)

The residual of the matrix solver is  $1.25094043577\text{e-}11$ .

The residual of the Gaussian elimination algorithm is  $3.33348045235\text{e-}14$ .

The difference between the two algorithms is  $3.67925025367\text{e-}16$ .

Problem 2)
